Draw What You Hear

Hey folks! I'm Arty Arthur. I'm a new member of the Curiosity Chronicle Club.

Art is a great way to keep your brain engaged! Some people are great at just listening, but me, well I need to keep my hands busy—it helps me listen better! So I've created Arthur's handy-dandy "Draw What You Hear" pages to help you get the most out of Curiosity Chronicles.

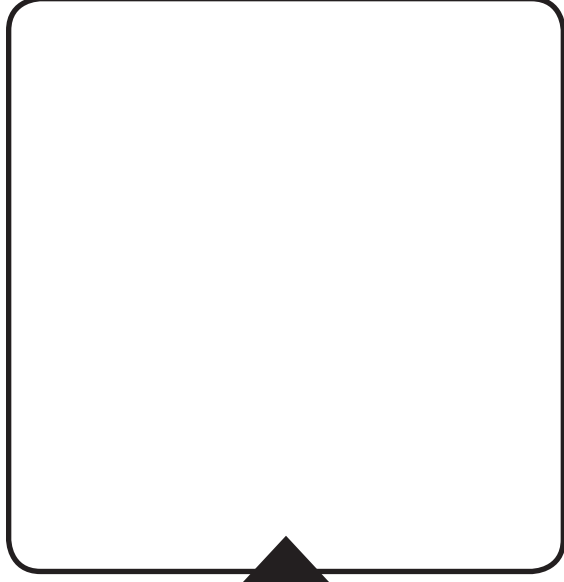

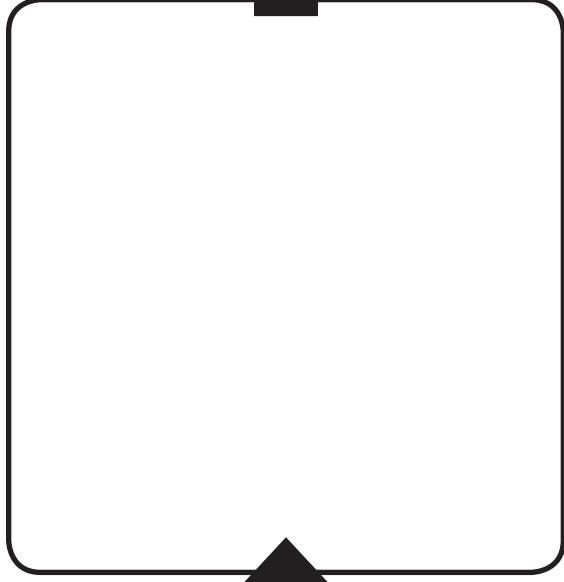

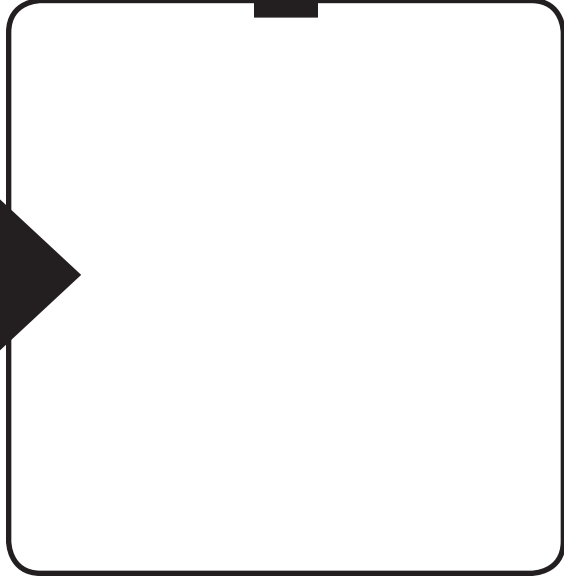

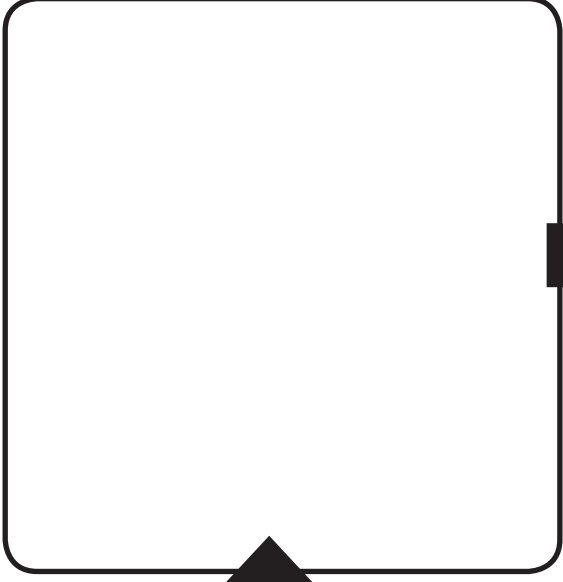

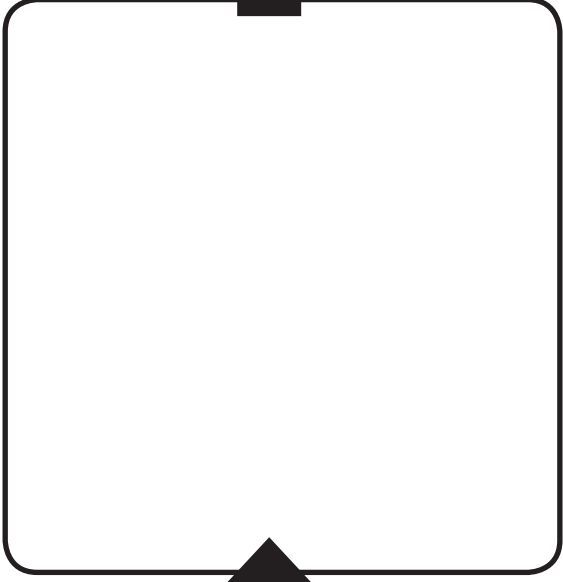

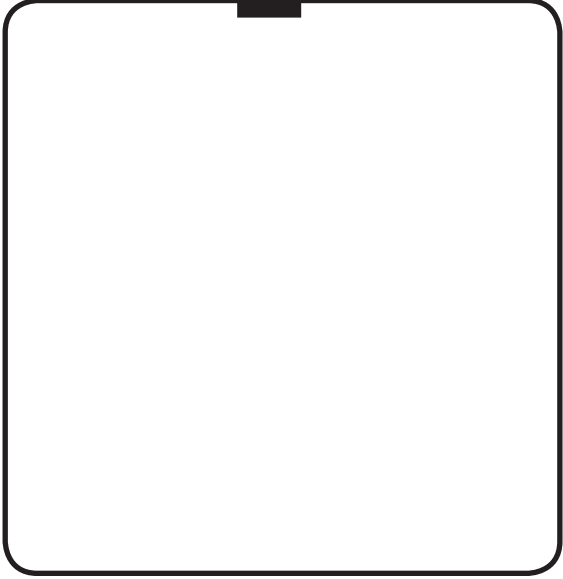

You could draw what's happening in each Snapshot in order. You could draw your favorite parts. You could draw what you have questions about. Draw whatever you want! Make as many copies of these pages as you need to stay engaged all year long.

I've included a sample of my own "Draw What You Hear" below to give you some ideas.

Happy drawing!

JUSTINIAN'S LAW VS. MODERN LAW

The *Corpus Juris Civilis* reformed Rome's laws and tried to create a more just legal system. These laws have influenced many future laws and are still influencing our laws today. Yet, ideas about justice and right and wrong have changed quite a lot since Justinian's day. Compare these laws from the *Corpus Juris Civilis* to the laws where you live to see what's stayed the same and what's changed.

PUBLIC AND PRIVATE LAW

- **Roman Law:** The law was divided into two large categories: public and private law. Public law had to do with the running of the Roman government. Private law was about individuals.
- **Today's Law:** _____

CRIMINAL INTENT

- **Roman Law:** In the case of more serious crimes, a distinction was made between crimes committed intentionally or accidentally. A lesser penalty was given for crimes committed accidentally.

Non-Capital Crimes Punishments

Slavery

- **Roman Law:** Roman law made a distinction between natural law (laws created by nature) and civil laws (laws created by the Roman government).
